Foreword

Thank you for purchasing the Light Storm LS 1

The Light Storm LS 1 includes LS 1s and LS 1c. It is made of 1536 lamp beads which are designed and manufactured carefully to have over 95 CRI value. Delicate design and elaborating production make a robust but exquisite housing, which can fulfill low forward heat of the fixture. LS 1 offers dual power solutions. You can use V-Mount or Anton Bauer battery in a location shooting. Besides, adapter attached is for your indoor shooting. LS 1 is with the ability to adjust the brightness and the color temperature (LS 1c). Two antennas can cover all the surrounding within 360°. You can also control the brightness and color temperature of LS 1 by a DMX console which is under the standard DMX512 protocol. Light Storm, the best choice for your shooting.

Instructions

- **Please read this product manual carefully.**
- Keep this product manual. Always includes this product manual when passing the products on to the third parties.
- Heed all warnings and follow all instructions in this product manual as stated.
- Please do not disassemble or modify the Light Storm LS 1, or it could result in electric shock or product malfunction.
