UP / DOWN / CROSS CONVERTER DAC-70

Instruction Manual

www.datavideo.com

Welcome to the DAC-70 Instruction Manual

Thank you for choosing a Datavideo product, please visit the support pages on our website for the latest version of the instruction manual.

<http://www.datavideo.com/Converters/DAC-70>

Don't forget to register your product online to qualify for an additional free one year extension to the standard warranty, and to receive information from Datavideo on service & information relevant to your Datavideo product including new software updates & drivers

Warranty

Standard Warranty

- Datavideo equipment is guaranteed against any manufacturing defects for one year from the date of purchase.
- The original purchase invoice or other documentary evidence should be supplied at the time of any request for repair under warranty.
- Damage caused by accident, misuse, unauthorized repairs, sand, grit or water is not covered by this warranty.
- All mail or transportation costs including insurance are at the expense of the owner.
- All other claims of any nature are not covered.
- Cables & batteries are not covered under warranty.
- Warranty only valid within the country or region of purchase.
- Your statutory rights are not affected.

Two Year Warranty

- All Datavideo products purchased after 01-Oct.-2008 qualify for a free one year extension to the standard Warranty, providing the product is registered with Datavideo within 30 days of purchase. For information

on how to register please visit www.datavideo.com or contact your local Datavideo office or authorized Distributors

- Certain parts with limited lifetime expectancy such as LCD Panels, DVD Drives, Hard Drives are only covered for the first 10,000 hours, or 1 year (whichever comes first).

Any second year warranty claims must be made to your local Datavideo office or one of its authorized Distributors before the extended warranty expires.

Disclaimer of Product and Services

The information offered in this instruction manual is intended as a guide only. At all times, Datavideo Technologies will try to give correct, complete and suitable information. However, Datavideo Technologies cannot exclude that some information in this manual, from time to time, may not be correct or may be incomplete. This manual may contain typing errors, omissions or incorrect information. Datavideo Technologies always recommend that you double check the information in this document for accuracy before making any purchase decision or using the product. Datavideo Technologies is not responsible for any omissions or errors, or for any subsequent loss or damage caused by using the information contained within this manual. Further advice on the content of this manual or on the product can be obtained by contacting your local Datavideo Office or dealer.

Disposal

For EU Customers only - WEEE Marking

This symbol on the product indicates that it will not be treated as household waste. It must be handed over to the applicable take back scheme for the recycling of electrical and electronic equipment. For more detailed information about the recycling of this product, please contact your local Datavideo office.

Warnings and Precautions

1. Read all of these warnings and save them for later reference.
2. Follow all warnings and instructions marked on this unit.
3. Unplug this unit from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a slightly damp cloth for cleaning.
4. Do not use this unit in or near water.
5. Do not place this unit on an unstable surface, cart, stand, or table. The unit may fall, causing serious damage.
6. Any slots and openings on the case top, back, and bottom are provided for ventilation. To ensure safe and reliable operation of this unit, and to protect it from overheating, do not block or cover these openings. Do not place this unit on a bed, sofa, rug, or similar surface, as the ventilation openings may become blocked. This unit should never be placed near or over a heat source or radiator. This unit should not be placed in a built-in installation unless proper ventilation is provided.
7. This product should only be operated from the type of power source indicated on the marking label of the AC adapter. If you are not sure of the type of power available, consult your Datavideo dealer or your local power company.
8. Do not allow anything to rest on the power cord. Do not locate this unit where the power cord will be walked on, rolled over, damaged or otherwise stressed.
9. If an extension cord must be used with this unit, make sure that the total of the ampere ratings on the products plugged into the extension cord do not exceed the extension cord's rating.
10. Make sure that the total amperes of all the units that are plugged into a single wall outlet do not exceed 15 amperes.
11. Never push objects of any kind into this unit through the case ventilation slots, as they may touch dangerous voltage points or short out parts that could result in risk of fire or electric shock. Never spill liquid of any kind onto or into this unit.
12. Except as specifically explained elsewhere in this manual, do not attempt

to service this product yourself. Opening or removing covers that are marked “Do Not Remove” may expose you to dangerous voltage points or other risks, and will void your warranty. Refer all service issues to qualified service personnel.

13. Unplug this product from the wall outlet and refer to qualified service personnel under the following conditions:
- a. When the power cord is damaged or frayed;
 - b. When liquid has spilled into the unit;
 - c. When the product has been exposed to rain or water;
 - d. When the product does not operate normally under normal operating conditions. Adjust only those controls that are covered by the operating instructions in this manual; improper adjustment of other controls may result in damage to the unit and may often require extensive work by a qualified technician to restore the unit to normal operation;
 - e. When the product has been dropped or the case has been damaged;
 - f. When the product exhibits a distinct change in performance, indicating a need for service.

Packing List

Items	Description	Q'ty
1	DAC-70 Converter	1
2	Instruction Manual	1
3	Accessory List	1

Introduction

The Datavideo DAC-70 is a broadcast quality, set and forget, up-down-cross converter. The unit offers simple mini switch controls and/or a flexible USB 2.0 interface. Whilst the DAC-70 case LEDs quickly confirm, DC power input, source selection and detection. The DAC-70 makes it easy to share VGA or HDMI or SDI inputs within your chosen HDMI or SDI workflow.

Housed in a rugged case, the DAC-70 is tough enough to meet the knocks of fast paced set ups in ENG, studio or live production work. Built to the same dimensions as Datavideo's range of converters, the DAC-70 can also be mounted into a standard 19" rack with a mix of other units when using the RMK-2 module.

That's Datavideo, sharing the value!

Features

- Supports 3G-SDI technology with full 10 bit processing and low SDI jitter
- DC or AC operation for convenient field or studio use
- Quick and easy mini switch setup
- Micro USB 2.0 interface for easy firmware updates

Video Inputs - Choose from:

- HD / SD-SDI [BNC] with active SDI loop through
- HDMI
- VGA [15pin D-Sub Female]

Audio Inputs

- Supports HDMI / SDI embedded multi-channel audio
- Unbalanced RCA Phono sockets [Stereo L&R Chls @ line level]

Video outputs

- Two HD / SD-SDI [BNC] with embedded audio
- HDMI with embedded audio
- HDMI & SDI outputs are active at the same time regardless of setting

Control

- Windows only software utility for local configuration and control via Micro USB 2.0 interface

Note: The DAC-70 supports HDCP copy protection. When you supply protected DVD or BD video the DAC-70 will output no signal.

Front Panel

Video In

Connects your VGA connector equipment to this connector

Supported resolutions

800x600 @60Hz, 1024x768 @60Hz,
1280x1024 @60Hz, 1366x768 @60Hz,
1400x1050 @60Hz, 1600x1200 @60Hz

HDMI In

Connects your HDMI connector equipment to this connector

HDCP Copy Protection

For legal reasons the HDMI input is unable to pass on video from copy protected HDMI sources.

Audio In

Inputs for 2 channels RCA unbalanced audio

HD-SDI In & Output (Loop Thru)

HD-SDI input and Loop-through output connectors.

Rear Panel

Mode Select (Mini switch)

Use these Mini switches to manually set the DAC-70 mode, see table on page 9.

The unit can also be set up by Windows computer over USB 2.0 cable, see page 11.

Source Indicator

Displays video source format.

HDMI OUT

Video and Audio output from HDMI.

HD/SD - SDI OUT

Video and Audio output from SDI.

DC In Socket

Connects the supplied 12V PSU to this socket. The connection can be secured by screwing the outer fastening ring of the DC In plug to the socket.

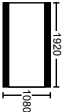

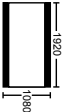

USB

Firmware upgrade/ Function control by DAC-Center

How to update the DAC-70 firmware

From time to time Datavideo may release new firmware to either add new features or to fix reported bugs in the current DAC-70 firmware. Customers can update the DAC-70 firmware themselves or they can contact their local dealer for assistance.

This section describes the firmware update process and it should take **approximately 10 minutes total time to complete**.

The current DAC-70 settings should be noted. Once started *the update process should not be interrupted* as this could result in a non-responsive unit.

As well as a working DAC-70 you will need:

1. The latest update file for the DAC-70. This can be obtained from your local Datavideo dealer or office.
2. The Upload Firmware utility. This can also be obtained from your local Datavideo dealer or office.
3. A Windows computer with USB 2.0 port.
4. A USB 2.0 - USB A to micro USB cable.

How to update the DAC-70

1. Switch off the power to the DAC-70.
2. Save the **firmware update** file and **Upload Firmware utility** to the desktop of your Windows computer so they are easy to locate.

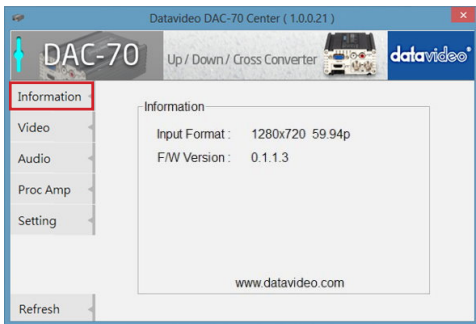

3. Connect the USB 2.0 cable between the DAC-70 and the computer.
4. Launch the DataVideo Upload Firmware utility. It will show **Disconnected** and the connect button will be greyed out.
5. Now switch on the power to the DAC-70. The connect button will now be available to click. Once you clicked the Utility, it will now show **Connected**.
6. Click the Open File button and select the update file.
7. Click the Start button and wait for the progress bar to finish.
8. When finishing the utility it will confirm **PASS** if the unit has been updated successfully.
9. The utility will automatically disconnect the DAC-70 unit.
10. Remove the USB cable from the DAC-70 and power cycle of the unit.
11. The DAC-70 is now ready for use again.

DAC-70 Center Utility features

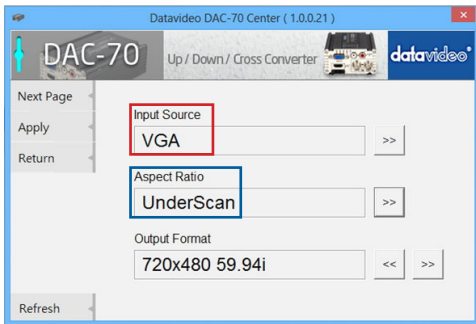

Please copy the **DAC-70 Center.exe** utility software from the supplied CD to your Windows computer. Now connect the DAC-70 by USB cable to the same computer. Switch on the DAC-70 and then launch the DAC-70 Center utility software.

1. Click on the **Information tab** to display the input format & firmware version.

- 2.1 Click on the **Video tab** to enter the video setup.

- 2.2 Set the input source, aspect ratio and output format **then click Apply**.

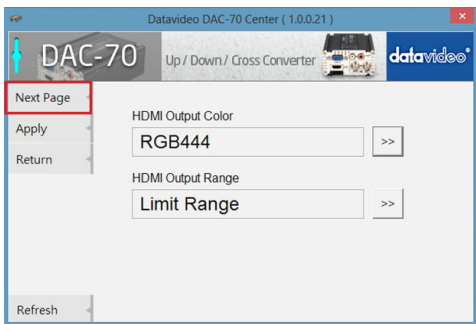

Note1: When “Input Source” set on “VGA”, the **Image Adjust** can set Horizontal Position & Vertical Position.

Horizontal Position	+	-
Vertical Position	+	-

Note2: When “Aspect Ratio” set on “Under Scan”, the **Image Adjust** can set Horizontal Size & Vertical Size.

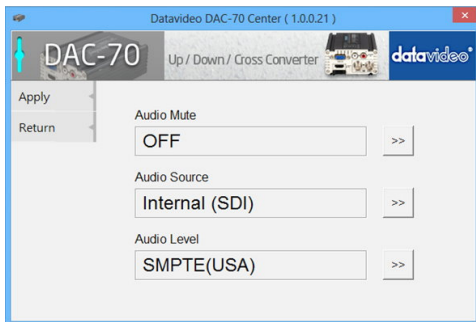

Horizontal Size	+	-
Vertical Size	+	-

2.3 Click **Next Page** to set the HDMI output colour & output range **then click Apply**.

3.1 Click the **Audio tab** to set the audio parameters.

3.2 Set the audio mute, audio source & audio level **then click Apply**.

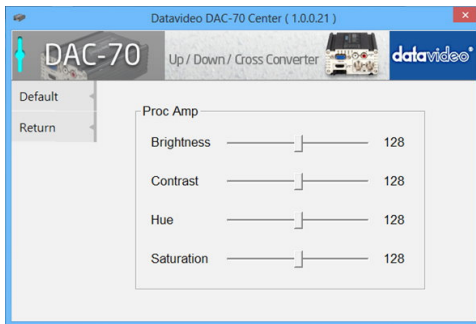

Note 1: Audio Level can also be switched between EBU and SMPTE standards.

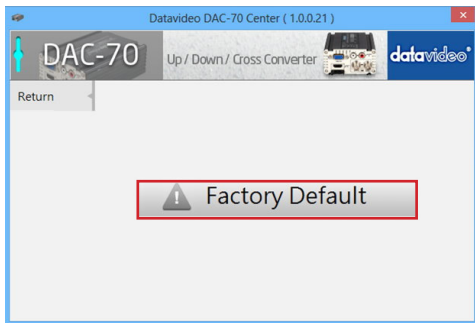

Note 2: Audio Level setting only for RCA input.

4.1 Click the **Proc AMP tab** to adjust the picture settings.

4.2 Set the Brightness, Contrast, Hue, and Saturation level.

- 5.1 Click the **Setting tab** to access the restore factory defaults window.
- 5.2 Click the **Factory Default button** to reset the DAC-70 to factory defaults.
